

Bloom's → Prompt Strategy Mapping

Bloom's Level	ThinkMate Example Prompt	Pedagogical Strategy
Create	➔ <i>"Design a novel solution to..."</i>	Generative scaffolding
Evaluate	➔ <i>"Which approach is most justified and why?"</i>	Criteria-based judgement
Analyze	➔ <i>"What are the underlying assumptions?"</i>	Decomposition prompts
Apply	➔ <i>"How would you use this concept in...?"</i>	Transfer & application
Understand	➔ <i>"Explain this concept in your own words."</i>	Paraphrase & elaborate
Remember	➔ <i>"What is the definition of..."</i> ThinkMate dynamically selects the prompt strategy based on the student's assessed Bloom's level, progressively scaffolding toward higher-order thinking.	Recall & retrieval cues
